TANGO 360

NEW

DOUBLE GATE CONNECTOR WITH SWIVEL

Tango 360 is the integration of our Tango connector with a highly efficient swivel and overload indicator that activates when stressed with a load between 200 and 300kg. It is a directional connector, designed to avoid twisting of ropes, lanyards and metal cables. The Double Gate safety system makes it easy to use and reduces the risk of accidental opening. The Keylock system avoids accidental snags during maneuvers.
