Net weight: 0.09 kg

Gross weight: 0.09 kg

DATASHEET

PHONE CABLE LONG

The PHONE CABLE LONG is the ideal companion for securing smartphones or tools flexibly and practically against falling or being dropped. The robust spiral cable contracts to approx. 55 cm and can be extended to 165 cm. This provides enough room to operate the smartphone or work comfortably with the tool without having to loosen it. The steel cable inside is extremely stable and always returns to its original shape even after heavy use. The small carabiner at the end of the strap makes it easy to attach the tool to personal protective equipment. With a carrying capacity of up to 2.3 kg, it is designed for smartphones or small tools such as spanners.
